

KEEP THE PRESSURE ON!

We can't stop now.

We marched at the State Capitol to demand that our legislators act immediately to prevent devastating budget cuts that would harm all Illinois citizens. And we're determined to keep the pressure on until they do just that.

Many of the organizations that participated in that march and rally are organizing Call-In Days to make sure that legislators continue to hear from us every day that they're in session.

Our Call-In Day is scheduled for

Friday, April 30

Plan to join in and make sure that we keep the pressure on for a responsible budget. Tell your legislators:

"Raise the new revenues needed to prevent budget cuts that will harm vital services. Support HB 174!"

You can call your legislators' offices directly,
or dial **1-800-719-3020** to be connected.
